All sales FOB shipping point. Publication valid through March 31, 2022. All prices are subject to change without prior notice. Applicable taxes, installation and freight extra. Per supplier, a surcharge (for steel or other) on applicable product will be added at time of order. Contact DES Canada at 1-866-868-3372 for complete details.

*Due to current currency fluctuations, some of our prices are subject to change without notice.

DES-Canada Tools and Equipment

The DES-Canada Tools & Equipment have been chosen with you and your customers in mind. The products provide you with the peace of mind that DES-Canada has selected the best equipment to fit the unique needs of your shop, to ensure your productivity with competitive pricing.

DES-Canada is committed to providing and supporting the ideal tools and equipment.

Advantages and Benefits:

Equipment Tailored to Meet Your Shop's Needs

Experienced Personnel and Sales organization.

Customer Service Support

Facility Planning Services

Flexible Payment Options:
Open Account, Credit Cards,
Cheque and Financing

Customized Service Facility Planning

The Real Key to Success is Customization

It's a word you hear a lot. Customization. It means delivering revenue building results that are unique to each customer we serve. From the one-of-a-kind CAD design we create for you to the equipment selection, installation, training and ongoing support. We're here to make your new facility the most productive and profitable facility it can be. The kind of facility that helps make technician recruitment, retention, and improvement of customer satisfaction index (CSI) seem almost effortless. Between your vision and our know-how, prepare yourself for the kind of efficiency and service your customers will appreciate.

Custom Facility Designs For:

- > Higher profits
- > Customer satisfaction
- > Technician retention
- > Higher productivity
- > Higher efficiency

Here's The Short List:

- > Customized CAD drawings
- > Equipment layout consultation
- > Performance-critical equipment recommended and installed
- > Complete quotes with freight and installation
- > Coordination of equipment delivery and installation
- > Extended equipment warranties as available
- > Multiple Finance and payment options to fit your needs
- > Equipment training for technicians
- > Post-sale service support

We Are the One-Stop Shop for Your New Facility

Facility planning and design take on a new meaning. Our services provide comprehensive End-to-End support for your service department starting with initial consultation, collaborative planning with architects and contractors, through installation and long term support. This insures that your service department and equipment are optimized for efficient productivity.

UP TO \$250,000* LEASING SOLUTION TAILORED TO THE AUTOMOTIVE BUSINESS

Consider the benefits of leasing for your company:

- Conserves existing bank lines
- Eases budget restrictions
- Conserves capital for other projects

- Potential Tax benefits
- Avoids equipment obsolescence
- Fixed costs
- Flexible repayment terms

LEASING CAN INCLUDE:

- ✓ EQUIPMENT
- ✓ DELIVERY
- ✓ INSTALLATION
- ✓ TAXES

ADVANTAGES TO LEASING

Increase your buying power

Leasing lets you leverage your buying power. Ability to have the new equipment with the add-ins required for your business needs and still have cash available or availability on your Line of Credit for other business opportunities.

90-day deferred payment

Ease's initial cash flow requirements post installation

Example: 48-month term with the initial 3 payments at \$0 and balance of amount owing spread over the remaining 45 payments.

Installation, Freight and Fees are Financed

All installation costs, taxes, freight and fees are eligible to be financed

Lease Payment Estimator Excluding applicable taxes.
 Average interest rate of 5%. Valid up to December 31, 2021*

Made for EV battery handling

Mobile Electrohydraulic Scissor Lifts M10 /M16

Technical and Mechanical Characteristics

The mobile scissor lift M10/M16 are designed to enable free access to all sides of the vehicle so that the operator can easily reach the fixing points of the car battery through the windows. The mobile steel frame oscillates on four heavy duty springs to better adapt to the undercarriage of the vehicle. The frame supports 4 mobile resin-coated plywood planks so that the battery can be safely placed on them to isolate it from electrical charges. The mobile push button block containing the up/down and lock/release controls is always on hand for the operator.

The mobile scissor lift is designed to facilitate various functions:

- Replacement of car battery
- Changing car tires
- Alternative to pit jacks or lift beams

With a few simple manoeuvres, various accessories can be mounted to ensure maximum safety for the user while using the product, and at the same time facilitating and speeding up the normal work cycle in tyre and car repair shops.

- On request M10 can be supplied with a battery

Schumacher Electric 16A EV Charger

SCH-SC1455 **\$395.55***

This portable EV charger brings an entire new dimension to your electric charging capabilities. Fully compatible with any EV vehicle using the industry standard, universal J1772 connector all while containing two unique EV charging options - Level One (120V) and Level Two (240V) electric charging capabilities. The SC1455 Electric Car Battery Charger boasts charging speeds up to three times faster than the standard EV quick charger!

Level 1 and Level 2 Charging Capabilities: Coming standard with Level 1 charging and includes the expedited Level 2 charging which would be up to x3 times faster than the standard EV charging options. The Level One standard charging will come with the NEMA 5-15 plug, and the Level 2 charging would be outfitted with the NEMA 6-20P with a rapid charging rate of up to 16A.

Charger Specifications :

- Input Voltage: 110-240V
- Input Current: 16A
- Output Voltage: 110-240V
- Output Current: 16A
- Dimensions: 16 × 13 × 2.25 in
- 28-foot cord
- Weight: 7.6 lb

Compatible With :

- Fully compatible with any EV vehicle using the industry standard, universal J1772 plug
- Chevy Volt/BMW/Nissan Leaf/Prius Prime/Honda Clarity/Kia Niro/Toyota Prius/Fiat/Ford and Tesla (with J1772 adapter supplied by Tesla).

Includes:

- (1) 16A 240V EV charger
- (1) 120V adapter cable
- (1) Manual

*All sales F.O.B. shipping point. Prices effective through March 31, 2022. All prices are subject to change without prior notice. Applicable taxes, installation and freight extra. EV 1000 V INSULATED TOOLS

Wiha Insulated tools meet ASTM F1505, EN/IEC 60900, NFPA-70E, CSA, and VDE

11 Piece Insulated TorqueVario-S (10-50 In/lb) and SlimLine Blade Set \$300.87*

WIH-28789
Slimline Blades:
Insulated Slotted: 4.0mm & 6.5mm
Insulated Phillips: #1 & #2
Insulated Square: #1 & #2
Insulated Xeno: Terminal #1 & #2100mm Extension Bar and 1/4" Drive Ratchet.

Insulated 80 Piece Set In Rolling Tool Case \$2,465.37*

WIH-32800
Insulated 80 Piece Tool Set with Screwdrivers, Nut Drivers, Pliers, Cutters, Ruler, Knife, Sockets in 22" L x 13 3/4" W x 9" H Rolling Tool Case

50 Pieces Insulated Pliers/Screwdrivers \$992.52*

WIH-32874
50 Piece Set Insulated Tool Set with Pliers, Cutters, Nut Drivers, Screwdrivers, T Handles, Knife & Ruler.

66 Pieces Insulated Pliers/Screwdrivers \$1,804.02*

WIH-32876
66 Piece Set Insulated Tool Set with Pliers, Cutters, Nut Drivers, Screwdrivers, T Handles, Knife, Sockets & 3/8" Drive Ratchet w/Extension, Adjustable Wrench.

Insulated Pliers/Cutters Tray 9 Piece Set \$352.02*

WIH-32999
Insulated Industrial Pliers/Cutters 9 Piece Set in Light Weight Tool Box Tray. Dimension of tray - 20" x 11.5" x 2"

Insulated Open End Wrench 13 Piece Metric Tray Set : 8mm - 24mm \$541.17*

WIH-20196
Sizes: 8.0, 10.0, 11.0, 12.0, 13.0, 14.0, 15.0, 16.0, 17.0, 18.0, 19.0, 22.0, 24.0mm

EV 1000 V INSULATED TOOLS

Wiha Insulated tools meet ASTM F1505, EN/IEC 60900, NFPA-70E, CSA, and VDE

Insulated 1/4" Drive Socket 13 Piece Metric Set \$481.02*

WIH-31391
Insulated 1/4" Drive Socket Metric Set 5.0 - 14.0mm Sockets, 50mm & 100mm Extension Bar and 1/4" Drive Ratchet.

Insulated 3/8" Drive Socket 10 Piece Metric Set \$481.02*

WIH-31590
Insulated 3/8" Drive Metric Socket Set 8.0mm - 19.0mm Sockets, 125mm Extension Bar, 3/8" Ratchet in Storage Box. 10 Piece Set

Insulated 3/8" Drive Ratcheting Torque Wrench Inch Socket Set \$1,383.12*

WIH-30190
Inch Sockets 1/4, 9/32, 5/16, 11/32, 3/8, 7/16, 1/2, 9/16, 5/8, 11/16, 3/4, 13/16, 7/8", 125mm & 250mm Extension Bars & 3/8" Drive Ratcheting Torque Wrench 5-50 Nm and 4-37 Ft./lb.

Insulated 3/8" Drive Socket 16 Piece Inch/Metric Set \$419.67*

WIH-31491
Insulated 3/8" Drive Inch & Metric Socket Set 5/16"-3/4" and 8.0mm - 19mm Sockets in Storage Box. 16 Pc Set

Insulated T-Handle Hex Screwdriver Set (Metric) \$72.12*

WIH-33478
5 Piece set with 4.0, 5.0, 6.0, 8.0 & 10.0mm

Insulated T-Handle Hex Screwdriver Set (Inch) \$85.47*

WIH-33490
6 Piece Set 5/32, 3/16, 7/32, 1/4, 5/16, 3/8"

Redline Diagnostic Leak Detector

RDL-95 0003C **\$1,428.95***

The Smoke Pro Total Tech Diagnostic Leak Detector® is the world's best-selling diagnostic leak detector. Smoke Pro® gives technicians full-featured diagnostic capabilities to detect, locate, and repair leaks in sealed systems. This compact, yet powerful machine not only finds more repair jobs, it helps you sell those repairs to your customers.

INCLUDES: OEM-Approved Smoke Agent, Halogen Inspection Light, Schrader Valve Removal Tool, Hex Key, Exhaust Cone Adaptor, EVAP Service Port Adaptor, Cap Plug Kit, Durable Storage Case.

LeakTamer Evap System

OTC-6522 **\$1,528.82***

New and improved smoke machine. Find the Leak. Clear the Code. Smoke the Test. LeakTamer is the latest generation of leak detection systems with a solid-state circuitry to improve reliability and ensure more consistent smoke output. A wide assortment of accessories make the LeakTamer versatile tools for quickly locating different kinds of leaks. Finds Vacuum Leak, Exhaust Leaks or Wind and Water Leaks. Test Crankcase Oil or Cooling System

Don't get shocked!

High voltage safety gloves need to be recertified every 6 months!

RECOMMENDED EQUIPMENTS:

- LTL-24401KIT : RESCUE HOOK 6' L, TEST AND STAMP - \$599.48
- LTL-E011Y10 : INSULATED RUBBER GLOVES - \$166.15
- LTL-LG10WLES.10 : LEATHER PROTECTOR FOR RUBBER GLOVES VARIOUS SIZES AVAILABLE - \$36.88

WE DO THE RECERTIFICATION.

Contact us today at 1-866-868-3372 for pricing and details to ensure the safety of your technicians.

Legend Series Refrigerant Analyzer with printer

For Use with R12**, R134a, and R1234yf Vehicles

Legend Analyser with printer

NEU-7081234300 **\$3,985.20***

The Neutronics Legend Automotive Refrigerant Analyzer takes refrigerant analysis to a new level. A sealed control panel, large LCD color screen, and multiple languages highlight the latest features in this latest design. The Legend incorporates customer feedback in its design to provide a fast, easy and accurate means to determine refrigerant purity in refrigerant storage cylinders or directly in a vehicle air conditioning system. It is one tool for all automotive refrigerant analysis applications.

Features:

- Refrigerants: R-12, R-134a, R-1234yf, R-22, HC, Air
- Test Time: 90 Seconds
- Calibration: Automatic
- Interface: USB (SAE J2843 Compliant)
- Display: 5 inch LCD
- Sample Type: Vapor Only
- Built In Languages: English, Spanish, French, German, Portuguese, Italian, Russian, Mandarin, Japanese, Korean
- Built In Printer: Yes (NEU-7081234300 only)

Legend Refrigerant Analyser

\$3,361.50*
NEU-7081234330

Same specs as NEU-7081234300 but without the printer.

** Optional accessories may be required with R12 system

R-ID Plus Refrigerant Analyzer with bluetooth and printer

ROB-16995 **\$6,696.50***

The Robinair R-ID Plus Refrigerant Analyzer quickly analyzes refrigerant, either R134A or the newer R-1234yf, in a vehicle's A/C system to determine if it is good or bad, a requirement of R-1234yf service. It is certified to the SAE J2912 standard. A large, easy to read color display shows results quickly and accurately. The R-ID Plus comes with an internal printer and also features bluetooth 2.0 connectivity.

Features:

- Quickly and accurately determine refrigerant purity
- Displays amount of R-1234yf, R-134a, R-12, R-22 and Hydrocarbons in percentage
- Displays % air in pure R-1234yf & R-134a
- Capable of testing R-12** (R-12 hose sold separately)
- Improved oil resistance with replaceable oil restrictor
- Large color display
- Easily print test results with built in printer*
- Battery powered with internal lithium battery
- Ergonomic design with protective boot

* R-ID Plus model only.

Paper Refill

ROB-34215 **\$22.36***

Printer paper roll for R-IDPlus

R-ID Refrigerant Analyzer

ROB-16990 **\$6,077.72***

Same specification as R-ID Plus without printer and bluetooth connectivity.

** Optional accessories may be required with R12 system

Clear Blue Coolant Dye

\$27.03*

TRA-TP3920 0601

Pack of 6 x 1 oz bottle
Convenient single-dose bottles

- Coolant dyes will not distort coolant color

Dye-Lite Oil-Based System Fluid Dye for Diesel Engines only

\$78.87*

TRA-TP3320 0008

Unique white color when under UV light helps differentiate between different leaking fluid systems like Engine and Transmission. LeakTracker works in both petroleum and synthetic-based fluids. Comes (1) 8 oz bottle For use in 6 & 8 cylinder diesel engines only.

UV Fluorescent Dye

\$63.82*

TRA-TP3320 1P6

Pack of 6 x 1 oz bottle
Leak detection dyes, a technician can diagnosis leaks across multiple, oil-based fluids – including transmission, oil and fuel.
• Color Fluorescent white

Gas Engine Oil Dye

\$32.62*

TRA-TP3400 1P6

Pack of 6 x 1 oz bottle
• Fluid dyes specifically developed for vehicles' various fluid systems
• Dyes available for gasoline engine oil, diesel engine oil and ATF / power steering

Mini-EZ™ single-dose Hybrid/Ester dye cartridges

\$53.49*

TRA-TP9811 1P3

(3) 0.25 oz (7 ml) Mini-EZ™ single-dose Hybrid/Ester dye cartridges

Refrigerant Leak Detectors: LD5 Select or LD7 Premium

ROB-LD5 **\$603.52***
ROB-LD7 **\$668.08***

The Robinair LD5/LD7 Refrigerant Leak Detector duo feature a new color graphic display that helps locate leaks using a unique bar graph mode to show the amount of refrigerant detected in the air and changes colors as it gets closer to the leak. Exclusive sweep mode on LD7 model allows the user to trace back and forth to pinpoint the exact source of the leak. They both use an audible alarm to alert technicians of refrigerant leaks and an inspection light for searching in dark locations. The Premium LD7 adds a UV LED lights to locate leaks using UV dye. The LD5/LD7 are compatible with most commonly used refrigerants today including 1234-yf and R134a and are equipped with a stable, long life sensor that will last up to 10 years. The LD5/LD7 meet all of the current industry leak detector standards and are covered by a 2-year warranty.

Features:

- Automatic calibration and reset to ambient
- User friendly message and error screens
- High intensity LED inspection light
- 3 adjustable sensitivity levels
- Low battery indicator
- Comfortable handle grip

LD7 model only:

- **Patented 3 LED UV lights with 395-415 nm wave length is optimum for a/c dye fluorescence**
- **Sweep mode function to pinpoint leak source**
- Sensitivity: .05 oz/yr R134a, .0123 oz/yr R1234yf
- Sensor life: Up to 10 years
- Instantaneous Response time
- Power supply: 4 AA alkaline batteries, included
- Battery life: 4 hours continuous
- Warm up time: Less than 20 seconds
- LCD display with 128 x 160 full color graphics
- Probe length: 17 inches, weight: 1.5 lb

Includes: Refrigerant Leak Detector (LD5 or LD7), leak test vial, 4 AA alkaline batteries, 5 sensor filters, carrying case and an operator's manual

Thermal Imaging Inspection Camera

\$996.06*

STE-79041

Thermal imaging camera with dual sensors blends visible picture with infrared heat map to provide an easy to read diagnostic picture of mechanical or electrical systems.

- 2.4 in High Resolution Display
- Measurement Range: - 4° to 572°F (-20° to 300°C)
- Resolution of Infrared image : 60 X 60 (3600 pixels)
- Dual camera lenses blend visible and IR images for easy target recognition
- Stores images on 8 Gb Micro-USB card (up to 32 Gb)

Recover, Recycle, Recharge Machine Maintenance and Replacement Parts

Maintenance and replacement parts for R134a equipment are also available.

Spin on Filter and Oil Maintenance Kit

ROB-13172 \$111.51*

Low Side Service Coupler

ROB-18122 \$84.95*

For R1234YF - Blue

High Side Service Coupler

R-1234yf Contaminated Refrigerant Recovery Machine

ROB-25700 \$1,996.14*

The contaminated recovery only device is designed to remove contaminated refrigerant from vehicles that are equipped with R-1234yf A/C systems.

To be used with a Contaminated Refrigerant Tank Assembly sold separately.

Refillable Contaminated Refrigerant Tank Assembly

ROB-17990 \$491.11*

30 lb capacity (To be used with a contaminated Refrigerant Recovery Machine (sold separately)

1234yf Recover, Recycle, Recharge A/C Machine

ROB-AC1234 6

\$7,150.00* / While quantities last

The Robinair AC1234-6 fully meets SAE's requirement for recovering, recycling and recharging vehicle A/C systems that use the new R1234YF refrigerant. The AC1234-6 is a fully automatic ACS machine that comes with an integrated refrigerant identifier that samples the refrigerant in the vehicle's A/C system prior to recovery, is a highly accurate and reliable machine, and can service both standard and hybrid vehicle A/C systems.

Features:

- Fully automatic operation — program for service, walk away and return when complete, 95% recovery efficiency
- Programmable vacuum operation helps get to the necessary vacuum level in any condition quickly.
- System leak test to identify gross leaks in a system.
- Charge accuracy within +/- 1/2 oz.
- Automatic oil drain shows how much oil was removed from the system during service.
- Automatic air purge removes
- Integrated refrigerant identifier (meets SAE J2927)
- Liquid refrigerant flushing function can flush A/C systems or individual components using liquid refrigerant instead of harsh chemicals.
- Automatic internal tank refill.
- 1/4 Color VGA display. Large easy to read graphical display
- On-board printer capable of printing vehicle service report slips

ROBINAIR

R-1234yf

R1234yf Oil Injector

The self-contained injector allows polyolester oil (POE oil) to be added to a fully pressurized A/C systems in just seconds. Includes a quick coupler for the R-1234yf low side port. (0.5 oz. Capacity)

A- ROB-18470 \$240.81*

Oil Injector for R1234YF A/C Systems

NEW PRODUCT

Battery Registration Reset Tool

ASS-12.0200 **\$689.37***

Vehicle Battery Systems fitted to modern cars require a complex system to control and maintain the best charge and discharge rates which not only ensures the longest in service life but also that systems such as Stop/Start operate correctly. The 12-0200 gives the operator access to all the functions complicated and time-consuming manufacturer scan tools have to perform the same function but in a fraction of the time. On average the total time required by the technician to reset a system will be 30 seconds.

- Simple to use menu-driven system
- Rugged design for harsh service shop
- 13 Programmed Languages
- Includes one-year tool software

Battery Management Monitors the Battery Voltage, Current, Temperature and Operating Times

Provides coverage for Active Battery Management Systems for Audi, BMW, GM, Ford, Nissan, Volkswagen, Volvo, and many more, allowing correct installation of a new battery with a system relearn along with code reading and clearing.

Failure to validate (register) the new battery will result in:

- Premature failure of the replacement battery
- Issues with the Start/Stop functionality
- Shutdown of non-essential electrical systems
- If a condemned battery is replaced and new battery is not validated, the battery management module will continue to manage the battery in an "assumed" degraded state, so it is critical that the diagnostic validation takes place.

Includes: OBDII Cable, USB Cable, Quick Start Guide – Instructions on tool operation

Kwikstart Pro-HD with 7 ft cable

ASS-KS401 **\$541.83***

- 12V, 22Ah AGM Battery provides up to 1,700 Peak Amp / 360 CCA of vehicle starting power.
- Built in USB Charging Ports and Power Port with a Rugged design
- Built in Accessory Storage for charging cords or Memory Saver Cords.

Digital Battery, Starter and Charging System Analyzer with printer

ASS-12 2415 **\$512.03***

- Back Lit Large Digital Display
- 12/24Volt Battery / Electrical System Testing
- Test Conventional Sealed Lead Acid, AGM Flat Plate or Spiral, Enhanced Flooded Stop/Start, and Gel Cell Batteries
- Built in Printer with customizable header and Bar Code Scanner.
- Field sensible replacement test leads.
- USB interface Cable included.

Not intended for printing Warranty Code Information.

Intellamatic® 12 Volt – 60 Amp/270 Amp Boost Wheel

\$1,081.23*

ASS-ESS6008MSK

- Boost with 70 Amp Power Supply, 15/20 Amp
- Memory Saver Port & OBDII Cable
- ESS™ technology adds a stable 70 Amp power supply for extended service procedures — Nominal 13.7V DC output
- Includes Memory Saver Cable and Cable Covers. CSA listed. MADE IN USA

60/270 Amp 12 Volt Automatic Battery Charger/ Analyzer with Power Supply and Memory Saver

ASS-IBC6008MSK

Now with Enhanced Flooded (EFB) or 'Start-Stop' batteries capacity. Smart charger and power supply with 15 Amp memory saver port for Standard automotive, Deep-cycle, EFB, AGM and Gel Cell Batteries.

**PERFECT FOR
YOUR SHOWROOM**

- **Charging:** for 12 V Lead or Lithium (LFP) batteries from 5 to 1500 Ah
- **4 Operating Modes**
- **DC Cable 8.46/4 AWG**

- Provides power compensation when using the electrical accessories of a demonstration vehicle
- No Battery Function : This function allows you to use the SHOWROOM power mode when there is no battery.
- Integrated charging Function: Adapted to all types of batteries (lead and lithium), in order to guarantee an optimal charge level for demonstration vehicles.

- Diagnostic Mode: supports up to 100 A for 12 V batteries in vehicles in the diagnostic phase
- Tester Mode: Allows you to check the battery voltage, evaluate the starting system (starter + battery) and the condition of the vehicle's alternator

- Change Battery Mode: Allows to keep the vehicle power supply during battery replacement, in order to preserve the memory of the vehicle's ECUs.
- Starter Mode: Starting aid for combustion vehicles. Allows the battery to be precharged and the charger to send the maximum current during the engine starting phase

Approved for use by most OE including Volkswagen

MCC-070 Controlled Charger

2 M Cable
MID-MCC.070.CH.2

3 M Cable
MID-MCC.070.CH.3

5 M Cable
MID-MCC.070.CH.5

The economical charging solution that doesn't require a technician to be a battery or charger expert. The MCC-070 offers benefits that address the unique needs of any service application.

- Charges batteries - including new AGM & EFB models quickly and easily
- Automatic and efficient charge recovery for deeply discharged batteries
- Provides on demand current and constant clean voltage to the vehicle battery for the extended period of time required to update the vehicle computer software. Selectable voltage levels from 13.5 - 14.5 VDC (.1 VDC)
- Display indicates charger status: charging, charge complete, charging error/fault
- Quick charging at 14.5VDC / 40A
- Controlled charging: EFB 15.5 VDC / 70A and AGM 14.5 VDC / 40A

MSP070 Power Supply Charger

2 M Cable
MID-MSP070 2

3 M Cable
MID-MSP070 3

5 M Cable
MID-MSP070 5

Designed for Showroom & Reflash.

The MSP-070 Power Supply Charger provides clean, reliable power for charging and maintaining battery state-of-charge during service reflash, complex maintenance, and in the showroom.

- Selectable voltages of 13.2, 13.6, and 14.4 VDC for standard lead-acid, AGM, and EFB battery types
- Avoid potential battery damage from drain during vehicle service and maintain vehicle electronic and accessory settings
- Return battery in optimum condition to prevent potential no-starts and ensure customer satisfaction
- Dynamic internal fan control offers quiet operation
- Circuit breaker for DC output protection
- Clamp high temperature and disconnect detection
- Input surge and Reverse polarity protection
- Power factor correction
- Low profile to fit under vehicles

6V, 12V and 24V Battery Charger, Battery Maintainer, Power Supply, and Battery Desulfator with Temperature Compensation

A fully-automatic professional battery charger for 6-volt, 12-volt, and 24-volt lead-acid automotive, marine, and deep-cycle batteries, including flooded, gel, AGM, and maintenance-free, plus lithium-ion. Includes 6V, 12V, and 24V battery charger, battery maintainer, trickle charger, powers supply, and battery desulfator (120-240VAC); Pro X-Connect battery clamps with integrated 3/8-inch (M10) eyelets; 10-foot (3m) extension cable; Type-B AC cord; Type-I AC cord; Type-G AC cord; Type-E AC cord; EVA storage case; (2) mounting screws; user guide; and 3-year warranty.

Versatile Battery Charger, Maintainer and Desulfator 6V/12V 10 Amp
\$156.44*

NOC-G10

NOCO Genius10 Battery Charger, Maintainer and Desulfator is designed for 6-volt and 12-volt lead-acid automotive, marine, and deep-cycle batteries, including flooded, gel, AGM, and maintenance-free, plus lithium-ion batteries. Enjoy precision charging and an integrated thermal sensor that detects the ambient temperature and alters the charge with safety features such as reverse polarity, short circuit, open circuit, spark proof, overheat, overcurrent, and overcharge.

Includes: GENIUS10 Battery Charger w/ Interchangeable Connector, Clamps w/ Integrated Eyelets, Mounting Bracket w/ Strap and Screws, User Guide.

R1200 Pro 3D Leverless Pro Tire Changer

ROT-R1200

LEVERLESS PRO PREMIUM CENTER LOCKING CHANGER WITH VARIABLE SPEED CONTROL

AUTOMATIC LEVERLESS TIRE CHANGER WITH SYNCHRONIZED DUAL BEAD BREAKING ROLLERS. HUB MOUNTED, DUAL ROLLER SYSTEM REQUIRES NO TOOLS

There's no metal-to-metal contact with patented leverless mount / demount tool. The three-position center post clamping system increases productivity and reduces the risk of wheel damage.

EASY TO USE CONTROLS

The easy roller bead breaker system and mount / demount tool simultaneously position in one simple movement. Demount and mount the most challenging tire and wheel combinations on the market - normal and reverse rims, run flat, and SST.

FEATURES 0-15 RPM VARIABLE SPEED TURNABLE MOTOR

The motor is equipped with an exclusive inverter that regulates rotational speed offering the operator customizable speed control. Rotational speed slows as the stress on the bead increases, avoiding any damage to the tire.

Rotary quality wheel and tire equipment...changing tires has never been this easy, safe and affordable.

STANDARD with THE R1200

- Integrated wheel lift
- Quick-lock rim clamping device with cone guard
- Power-assisted bead mount / demount tool
- Rotating pneumatic top bead pressing tool
- Inflation station
- Storage cabinet
- Tire paste lubricant and brush

R155 Pro 3D Wheel Balancer

ROT-R155

Equipped with all the features for the most demanding professional. Easy operation thanks to interactive inputs, which guide the operator during all the phases of the balancing process. Fast balancing process with automatic start when the cover is lowered and automatic stop of the wheel in the external unbalanced position.

- Simple visual display
- Automatic program
- Internal data gauge
- Space saving footprint

Wheel Balancer

R180 Pro 3D Auto Wheel Balancer

ROT-R180

Our premier wheel balancer, the R180's automatic balancing mode provides the precision that ensures your techs are able to do the job right the first time. And the automatic wheel dimension sonar and laser rim profile scanner minimize the number of necessary wheel weights—saving you time and money.

- Rim profile laser scanner
- Multiple balancing programs
- Save weight memory feature
- Pinpoint laser weight indicator

Elevate alignment service to a new level of productivity.

HawkEye Elite® Alignment Systems

Features:

- Vehicle information database and vehicle specific adjustments
- 3D modeling of wheel position provides accurate alignment measurements.
- Exclusive QuickComp® compensates in one roll-forward motion.
- Award-winning CodeLink® steering system reset device and VIN bar code scanner come standard.
- Fully Integrated Alignment (FIA) minimizes steps and streamlines the alignment process

Choose from a variety of consoles and sensor configurations to fit your shop space.

Road Force Elite Balancer

The World's Fastest Diagnostic Balancer!

HUN-RFE33

The Road Force Elite Wheel Balancer delivers exceptional balancing service and performs a Road Force and balance faster than a traditional wheel balancer. The Road Force Elite solves wheel vibration problems that traditional wheel balancers can't fix. This machine detects non-balance, radial-force related problems associated with tire uniformity, tire and rim runout, wheel to balancer mounting errors and improper bead seat of tire to rim. This machine unlocks more Technology in less time which minimizes operator error.

Notable Features Include:

- Intuitive Touch Screen Interface.
- Up to 47% faster operation compared to previous models!
- On demand videos simplify training and improve results.

This top-of-the-line RFE33 includes ALL available accessories: Wheel Lift, Auto Clamp, TDC Laser, Printer & Storage. Other configuration available.

KEEPS YOUR BRAKE SERVICE A CUT ABOVE THE REST.

AutoComp Elite™ Brake Lathe On-Car Brake Lathe System

HUN-ACE
On Car Brake

HUN-20.3613.1
On Car Brake Lathe with Guard (Mandatory for QC)

The AutoComp Elite® Brake Lathe system was the first to introduce Hunter's revolutionary Anti-Chatter Technology to provide a smoother surface finish. The AutoComp Elite® Brake Lathe virtually eliminates the buildup of vibration (chatter) that can occur when machining rotors at a fixed speed.

Features:

- Automatic Compensation directly determines compensation and eliminates 'wandering'.
- Anti-Chatter Technology oscillates machining speed to prevent buildup of vibration.
- Variable-Speed Drive System avoids differential lock-ups by cutting at lower speed.
- Intuitive touchscreen interface simplifies lathe operation 'On the job' training built into the tablet surface.
- Powerful Motor and Drive, 1.5-hp motor provides class leading speed and torque.
- Unique, stepped cutting pattern prevents radial "push-out" effect.
- Warranties: 1 year on tablet, 3 years on mechanical Lathe (consumables are not included), 1 year labour

TCX53 Tire Changer

HUN-TCX53H

The new Hunter TCX53 Professional tire changer is 15% heavier than competing models and features class-leading rigidity to handle today's tough tires.

Features:

- Easy-to-use adjustable tabletop provides a 10- to 26-inch clamping range.
- All tabletop jaws adjust simultaneously for mistake-free clamping.
- Hi-grip jaw covers add mounting torque and protect wheels.
- Patented bead press system eases clamping, lubricating, demounting and tough wheel and tire combinations.
- Available with a unique 110V or 220V motor that is faster than popular alternatives and doesn't slow down under load like air motors.
- Available with leverless mount head and/or wheel lift.

*All sales F.O.B. shipping point. Prices effective through March 31, 2022. All prices are subject to change without prior notice. Applicable taxes, installation and freight extra. Per supplier, a surcharge (for steel or other) on applicable product will be added at time of order. Contact DES-Canada at 1-866-868-3372 for complete details.

Revolution WalkAway™ semi-autonomous Tire Changer

HUN-TCRH

Hunter's Revolution™ is now a semi autonomous tire changer that simplifies tire changing for all assemblies. Simply load the tire, set the dimensions and watch it work!

Amazing WalkAway™ Operation

- 80-second unattended bead breaking and demounting process
- When paired with wheel balancing, 25%+ time savings is possible
- 57% less time spent changing a tire using WalkAway™
- Fully automatic operation
- Intuitive touchscreen interface indicates operator's current step and monitors progress throughout the procedure.
- Standard camera monitors operation
- Flange plate featuring wider clamping range and quick-change pins eases service.
- Powerful press arms adjust automatically when diameter is set.
- Leverless tool head's demounting hook automatically deploys, catching and lifting the bead with ease.

Hunter has additional wheel balancers, tire changers and accessories available. Contact a DES-Canada representative for more information and pricing.

Auto34R Tire Changer

HUN-TCA34R

Auto34R features an innovative telescoping spindle to set wheel diameter. An electric actuator drives the movement while roller and tool head angles adjust automatically. It offers 10-34in tire size capabilities, Leverless tool head with memory. Variable speed high-torque 220V motor. Press arm, simple three-button control, wheel lift, and mirror are standard.

Features:

- The Auto34R builds on its predecessor, offering: Smoother and more precise diameter control.
- Optimized mount head and roller angles for reduced tire stress, Elimination of common wear parts.
- Center mounted bead press for a 15% smaller footprint.
- 11% larger Vertical air tank improves blast inflation and saves space.
- Diameter Control - Telescoping chassis brings the wheel into position. Electrical actuation is smooth and precise.
- Push-Button Controls - Simple, three-button control Easiest operation in its class.
- Memory Function - One button returns mount head to rim height Saves time and mistakes.
- Bead Press Arm - Helps mount and demount difficult tires Center mounted for a tight swing radius for compact footprint.
- Leverless Tool Head - Positions bead without levers Prevents damage to tire and rim Adds operator safety.

ADAS & Scan Tool Package Introducing the Bosch DAS300 & Hunter ADASLink™

HUNTER
Engineering Company

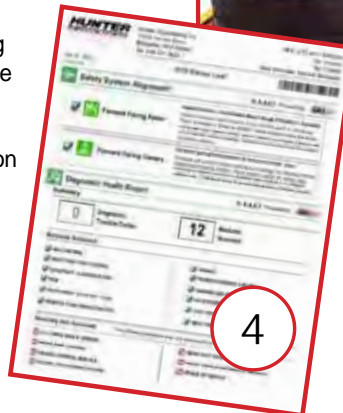

Calibrate & Document
in Half the Time!
As Easy as 1 2 3 4.

- 1: Plug into vehicle and perform pre-scan
- 2: Position fixture and place targets
- 3: Follow guided sensor calibration procedure
- 4: Post-scan and provide automatic documentation

**NEW
PRODUCT**

Pictures for illustration purposes only.

A World Leader in OEM ADAS Systems.

Designed for the Future:

Designed for today's ADAS systems. Bosch is already codeveloping the next generation of ADAS sensors and the DAS 3000 has been designed with these future technologies in mind.

Precision and Confidence:

From the precision digital measurements to the intuitive user-interface, the DAS 3000 is designed to take the ambiguity out of the calibration.

Integrated Target Storage:

Allows technicians to stow their camera targets while allowing immediate access for the fastest calibration set up while keeping targets clean and serviceable.

Speed and Efficiency:

Commonized OE procedures to simplify set-up and calibration processes saving shops time and money by getting customer vehicles calibrated faster and with the confidence that it's done right.

OE Sensor Development:

Bosch is partnering with many of the largest OEMs to develop the next generation of cameras, radars, and sensors to learn what it takes to accurately calibrate ADAS systems for the vehicles of today and of the future.

Recalibration Experience:

Bosch has long been developing recalibration solutions with over one million calibrations completed to date. Invented for Life: Bosch wants their products to spark enthusiasm, improve quality of life, and help conserve natural resources.

Certified Space Saver 2-post lift - 7,700 lb capacity

ROT-ATO77N000MBL (Blue)

ROT-ATO77N000MBLK (Black)

An ideal solution for dealers updating older facilities or just looking to save space.

Performance and Productivity Rotary's ATO77 2-post lift offers a Narrow 10'3" Overall Width with 3-stage front arms, two-stage rear arms, round (RA) adapters with Low 3 5/8" pad height to provide a maximum drive-through clearance with minimum external dimensions. The asymmetrical design of the posts and supporting arms also provides a spacious pick-up area, allowing the lift to be entered from either side. Asymmetric design allows for open door clearance.

The ATO77 lift is equipped with many of the features that make the larger SPOA10 two-post lift so popular, including Rotary Lift's low-profile screw-up adapters with three-stage front arms, stacking adapters and adapter storage racks. (Note: Shockwave option is not available on ATO77 lifts).

High Capacity Open Front Four Post Alignment Lift - 22,000 lb

ROT-ARO22S Standard Length / **ROT-ARO22L** Extended Length

Give your shop more flexible options for repairs. Standard with exclusive, unmatched features and productivity-enhancing accessories, Rotary's versatile ARO22 is compatible with all available Rotary wheel alignment systems. This lift is engineered for cars and commercial vehicles.

- Open-End Design
- Rolling Jacks : 15,000 lb Capacity Rear - 9,000 lb Capacity Front
- Air Locking Rear Slip Plates
- LED lights integrated into lifting platforms. The adjustable lighting system illuminates the under vehicle workspace. Dimmer controls enable Lumen adjustment ideal for every application.
- Patented articulating roller system – balances roller load for extended life
- Dual Function Sentinel Lock™ System
- Single Piece Formed Runway With Non-Welded Tracks For Rolling Jacks
- Internal Airline with Air Filter/Regulator/Lubricator
- Stainless Steel Radius Gauges

ARO22S - 215" Standard runway length

- 82" to 165" 4-wheel alignment wheelbase range
- 179" 2-wheel alignment wheelbase
- 194" general service wheelbase

ARO22L - 251" Extended runway length

- 82" to 165" 4-wheel alignment wheelbase range
- 215" 2-wheel alignment wheelbase
- 230" general service wheelbase

Optional SmartFILL™ system allows tires to be set to the desired psi while the technician performs other work. Dual tire filling enables separate pressure settings for front and rear axle tires.

2-Piece, Low-Profile Arm Design with More Reach

ROT-SPOA10RA

- New Trio™ Arms have more reach and retract shorter than standard arms, allowing the lift to accommodate a broader range of vehicles
- Adapters are interchangeable on the same arm: the flip-up adapter, polymer round adapter, or frame-contact truck adapter all fit in the same slot.
- Same great Rotary features including optional Shockwave-equipped power, user friendly arm restraints, Rotary-built power units, cylinders in both columns, adjustable-height options, and all the rest.

10,000 lb. Asymmetric 2-Post Lift, Trio Arms with **Truck Adapters** (ROT-SPOA10TA) also available

10,000 lb capacity

Extended Height options:
EH1- 1 ft
EH2- 2 ft
EH3- 3 ft

10,000 lb Asymmetric 2-Post Lift, Trio Arms with **Rubber Adapters**

Shown here with optional accessories that are sold separately.

Call for Price

Tech Light Kit For 2-Post Lifts

ROT-FA5701

The LINE LIGHT 2 is perfect for two-post lifts. Each LIGHT 2 is thirty-four inches long and packed with ninety-six LEDs. Both lights have a spiral cord that stretches more than 16 feet. The lights are easy to mount, with 4 magnetic mounting clips for positioning the light exactly where you need it. Includes a 25' cable, 20W power supply and magnetic junction box.

12,000 lb Symmetric 2-Post Lift with 3 ft Extended Height - Suited for High Roof Vans

ROT-SPO12 EH3

Two-post symmetric lift, 12,000 lb. capacity, 3-stage arms, frame-contact adapters, 3' extended height for high roofs vans. Electric/hydraulic operation.

Features:

- 12,000 lb. lifting capacity.
- 3 ft extended overhead for lifting high-profile vehicles.
- 3-stage arms increases the range of vehicles this unit can accommodate.
- Includes stackable inserts, 3-1/2" and 5", when additional clearance is needed
- Rotary designs and builds our own power units instead of using third-party power units built for universal applications.
- High-pressure, full-stroke cylinders in both columns.
- Multi-position locks engage every 4 inches.

- Original "Double S" single-piece column design maximizes column strength.
- Slider bearings made of Tivar 1000 polyethylene are self-lubricating and maintenance free.
- Arm restraints make positioning of arms easy. They engage when lift is raised and automatically disengage when lift is fully lowered.
- Overhead cables allow for a clear-floor design and ensure proper equalization of carriage.
- Overhead padded switch prevents damage to vehicle by raising it too high.

12,000 lb capacity

3 ft Extended Height for High Roof Van

SHOCK WAVE
Also available

Shown here with optional accessories that are sold separately.

SHOCK WAVE
Also available

16,000 lb capacity

Adapter Extensions kit

ROT-FJ7880BK

Provides additional lifting height when vehicles require additional clearance or use on front or rear to level vehicle on lift. Fits models SPO/SPOA10 RA/TA and SPO12TA 3-stage arms. Includes four 3 1/2" (89mm) and four 5" (127mm) adapter extensions, mounting rack and hardware.

2 Post Symmetric Lift 16,000 lb capacity

ROT-SPO16

More dealers and independent repair shops choose the Rotary SPO16 because of its reputation for quality and reliability. With a standard feature set that can't be beat, it's easy to see why. Every SPO16 comes standard with our exclusive single piece "double S" column, front and rear three stage arms, stackable thread-up truck adapters and Rotary piece of mind. Customizable features include low ceiling or alternate height configurations (EH1/EH2/EH3) or choose to **supercharge your lift with Shockwave**. Automotive Lift Institute (ALI) Gold Certified.

CL10 Series Above-Ground Two-Post Lift

CHL-CL10V3

Service more vehicles and increase your bottom line with the CL10 series two post auto lifts. Its exclusive Versymmetric® Technology provides the versatility to safely lift cars, minivans, trucks and SUV's properly and safely, symmetrically or asymmetrically within the same service bay. Features a mirrored "S" column design and custom configuration with adjustable height and width. Space-saving column base plates, clear floor design, single-point mechanical lock release, round double telescoping screw pads and many other features. Optional Quick Cycle technology optimizes efficiency.

Features:

- 10,000 lb lifting capacity.
- 3-stage front arms provide greater overall arm sweep.
- Double Telescoping Screw Pads adjust to multiple heights, minimizing the need for adapters.
- Adjustable heights between 11' 4-1/4" and 11' 10-1/2" and adjustable widths from 10'9" to 11'5-1/2" provide versatility at installation for service facilities with special constraints.
- Single-point mechanical lock release system allows technician to disengage both columns simultaneously.
- Padded overhead shut-off system prevents vehicle damage from being raised too high.
- Premium powder-coat finish provides long-lasting durable finish.
- Rubber door guards provide added security against vehicle door damage.
- Mirrored "S"-shaped columns provide a clear and safe concave conduit for the bearings.

CHL-10315
sold separately

CL Challenger Lifts

Versymmetric® Plus

10,000 lb Capacity

**UP IN 27 SECONDS,
DOWN IN 17 SECONDS**
regardless of vehicle weight with optional Quick Cycle™ technology

In-Ground EnviroLift® for Every Need! Electric / hydraulic In ground Lift

CHL-EV1020

- 10,000 lb lifting capacity.
- Offset 3-stage front and rear arms safely lift both symmetrically and asymmetrically within the same service bay maximizing service capabilities
- Double telescoping screw pads.
- Standard wall-mount or optional bench-mount controls available.
- 87in drive-thru provides more tire clearance
- Larger 8-1/2" diameter chrome pistons
- Chrome non-breathing ram style cylinder minimizes water intake and other contaminations
- Enhanced raised wiper at top and bottom of bearing

A35R CAPACITY 3500 KG ELECTRO-HYDRALIC LOW PROFILE DOUBLE SCISSOR LIFT

ALG-A35R **\$8,254.40***

TECHNICAL AND MECHANICAL CHARACTERISTICS

- 1 - With dual pair of master/slave cylinders without rack
 - 2 - Load-bearing structure in extra, "solid" certified-quality tubular steel
 - 3 - Large-scale external articulations supported on three load-bearing points of movement
 - 4 - Central articulations, 210 mm wide, supported on four load-bearing points of movement
 - 5 - Control unit: made up of two rockers in a special shape for obtaining a progressive distribution of the power and the speed, with a reduced and constant oil-hydraulic pressure
 - 6 - Oversized connecting rods
 - 7 - Reinforced ramps
 - 88 self-lubricating bushes with tempered and chrome plated steel pins
 - REACHED PURPOSE: the approval of our customers
- This lift is not ALI approved.

- **Maximum lifting height** : 1930 mm
- **Minimum height** : 90 mm

Car Parked Lift

OMR-MOVE30

Move 30 N is a member of the car parking lift family that operates with a two column system with the columns placed on opposite sides along the longer sides of platform. This model requires walls on either side to attach to but does not impose the same loads as the Move 30 L. It can serve up to 16 metres thereby covering most of the markets needs. It has the double value of a car parking lift and a goods lift.

Move 30 N is a platform that runs on two opposing columns that can easily be installed, even in places which do not allow for direct securing to the walls. The vehicle can be parked on the platform facing in either direction, forward or back, without affecting the platform balance at all. Moreover, the platform is certified for use up to a height of 11 meters.

The platform is composed of an extremely resistant base structure and no points are subject to bending even though the weight bearing capacity of 3,000 Kg. The relative stability makes this unit extremely safe and easy to drive the vehicle onto the platform.

Bipark - Dependant Double Stacker for storage or parking

Rugged, Compact and Designed for Repeatability.
From 5,700 to 7,000 lb (2.6 to 3.2 ton.) capacity per platform.

Bipark is a compact double car stacker that can lift a car smoothly and quickly into position. It is compactly designed to allow several vehicles to be parked in a relatively small space. The platform has different capacities and dimensions in order to be able to accommodate SUV's, 4 wheel-drive vehicles, and even low clearance sports cars. Moreover, the galvanized platform structure is designed in such a way to prevent fluids from the upper vehicle from dripping down on the lower one.

Capacities:
5,700 lb to 7,000 lb
Dimensions:
(86.6 in. x 142.5 in.) to
(94.5 in. x 142.5 in.)

TPMS Sensor Activation and Programming Tool

\$367.67*

ATQ-VT36 0001

The VT36 TPMS programming tool offers functionality and flexibility at an affordable price. Its rugged casing and durable rechargeable battery is designed for tough service environments. Thanks to frequent updates, the newest TPMS sensors and vehicles are introduced each year. The VT36 works in tandem with the several diagnostic software (not included) to connect to the vehicle.

- Low cost, robust and easy to use
- Test all TPMS sensor data before working on customer's vehicle
- Program all leading aftermarket sensors

Features:

- Comprehensive make, model, year look-up
- Reads and activates all known TPMS sensors
- Displays TPMS sensor data (ID, tire pressure, tire temperature, battery status, frequency)
- Programs all leading aftermarket programmable sensors
- Make, model, year specific relearn procedures
- TPMS sensor part number look-up (OE and aftermarket)
- Multi-lingual, 19+ languages
- Worldwide TPMS technical support

Comprehensive TPMS Service Tool

\$1,171.93*

ATQ-TS56 1002

The fastest TPMS tool with user-friendly features, advanced software and tool design

- Works with universal and programmable sensors
- VIN barcode scanner for Make, Model, Year selection
- TPMS sensor part number look-up (OE and aftermarket)
- Activate, Decode and Display sensor information
- Comprehensive Make, Model, Year specific relearn procedures

- Display OBDII location on tool screen
- TPMS reset via OBDII on applicable vehicles
- Retrieve TPMS DTC codes on applicable vehicles
- Key fob testing function
- Saves TPMS service history on-board and PC
- Integrated help: tool training, vehicle reset procedures and aftermarket sensor part numbers with Worldwide TPMS technical support

Kit includes: VT56 tool, TPMS relearn magnet, OBD2 module with cable, 24V wall charger, Quick start guide and CD (with user manual and software/WebVT)

Magnetic Lug Bucket

\$54.85*

STE-79011

- Includes 3 high-strength magnets that holds to any steel portion of the lift or workbench
- 6 magnet positions for multiple mounting configurations
- Dimension: 5" x 7" x 3.5"

Digital Tread Depth Gauge

\$19.86*

JNW-AG010205

Fast tread depth or brake pad/shoe wear measurements.

- Large LCD display with zero setting
- Metric / inches • Manual power on/off
- Use SR44/LR44 1.5V battery

Specifications:

Range from 0 - 25.4 mm (0-1.0")

Resolution : 0.01 mm

Working Temp.:

0-44°C (32-111°F)

Stick-on Weight Remover Pliers

\$90.01*

ARH-5246BL (Black)

ARH-5246R (Red)

Prevent expensive alloy wheel damage when removing stick-on balancing weight! The pliers pulls on the balancing weight, leaning on the adhesive base without making contact with the rim.

Pro Cut X9 OCL Brake Lathe with 5 Adapters

PRO-X9 5 **\$14,797.00***

SPECIAL PRICE

New High-Performance Expandable Platform, the PFM X9 combines our best existing technologies, like patented PFM one-button computerized compensation system and 4 wheel, 4 axis fully adjustable trolley, and combines them with an entirely new X-frame solid lathe chassis, gib-less low maintenance gearbox, powerful high-torque drivetrain, and super bright 6 LED lights. X9s are digitally expandable to optional GYX and GYR systems. High efficiency shops use 1 lathe per 8 bays.

Features:

- Pro-Cut X9 on-car brake lathe
- DRO computer box (accepts GYX/GYR upgrades)
- Speed-lock cutting head
- Fixed post trolley
- All accessories include silencer and cutting bits
- Adapter packages available from medium duty trucks and buses
- On-site installation and training
- 2-year Warranty

Accessory package included

2-year warranty!

WHEEL TROLLEY

MADE IN DANMARK

The clever round trolley that has been specially designed to optimize working on tires and in automotive repair shops.

Features:

- 800 mm/ 31.4 inch in diameter
- Maximum load 250 kg / 552 lb
- Safer with wheel brakes

Stack when not in use

Wheel Trolley XL with brakes

\$157.59*†

FX1-80000CKWT2B

The Wheel Trolley® XL is therefore suitable for the transport of 4x4 wheels, van wheels and other large wheels, and is completely indispensable in handling and transporting large and extra-heavy tires around the workshop.

Wheel Trolley Extended with brakes

\$286.31*

FX1-63003CKWT2B

Wheel Trolley Basic with brakes

\$113.91*†

FX1-63000CKWT1B

The Wheel Trolley® Basic is designed for either 8 tires or 4 complete wheels and has load capacity of 120 kg/ 265 lb.

Features :

- Storage of wheels during mechanical work
- Transport of wheels from the auto lift to tire changer
- Storage of customer wheels
- Compatible with various items of lifting and transport equipment

Wheel Trolley® Extended is the cleverly extended version of the popular Wheel Trolley® to create a more ergonomic working height. The Extended version thereby saves you from unnecessary lifting and is an indispensable aid in the workshop:

- Used for mounting and dismounting of wheels
- Used for several different operations in the workshop
- Ingenious storage of wheels during mechanical work
- Saves unnecessary lifting and improves working posture

Standard mobile tire display rack

MAR-MTD60

Designed to expose tires outdoors, the mobile tire display will keep its color and luster. Holds small 23 in to large 32 in tires.

The Standard mobile tire display rack is a classic and sturdy tire display that will attract customers by showing them your tire offer before they even walk in your tire shop. Hook it on the Dolly for tire display (MAR-MD sold separately) to easily roll it in and out of your tire shop.

carries up to 8 wheels at a the time!

Tire Rider Tuff - Tire cart, Tire Rider Series

\$686.88* / While quantities last

MAR-MTC

cart on the market with its 550 lb loading capacity.

Carry 8 tire/wheel assemblies of up to 35 in OD. Lifetime warranty on the spring clamping mechanism. Rubber wheels are solid and flat free. Familiar look, unique build. The Tire Rider Tuff tire cart is equipped with a clamp closing mechanism; a strong and solid steel spring with a lifetime warranty. No more gas shock.

Dolly for tire display

MAR-MD

This tire display dolly is used to move MTD-60, MTD-72 and MTD-3T display units. It serves as both a handle and a lever for moving and guiding these rolling tire racks outside and inside. The dolly is equipped with solid wheels.

Wheel Display Rack

MAR-MWD

Enhance the visibility of your rims by displaying them in your showroom. Exhibit up to 8 wheels of up to 25» OD (2 wheels per tier). Discreet and solid steel tubes, leaving all the room to highlight your rims. Display your high-end wheels in the timeless Wheel display rack. Its boltless structure makes it easy to assemble or restructure to make it a three- or two-tier wheel display. Designed with angled square tubes, the Wheel display rack will safely hold your high-quality wheels in place. To create a greater effect in your showroom, rotate two tiers to make it a 360° wheel display.

EASYLIFT Wheel lift

GL-200 100 000

<https://www.youtube.com/watch?v=SyZZXyHlopk&t=8s>

LIFT

Seasonal tire changes increase risks for injury. Repetitive motions with heavy loads is a hazardous reality for technicians. The EasyLift is an effective solution to minimize accident and increase productivity.

The EasyLift makes wheel changing considerably easier. Wheels weighing up to 60 kg (132 lb) can be replaced rapidly and without effort. The EasyLift is the quickest device on the market thanks to its high raising and lowering speeds. The wheel assembly remains movable on a mounting fitted with ball-bearing rollers. The wheel lift is air operated and an innovative control permits a finer adjustment of the working height for precise wheel positioning. The EasyLift remains mobile at all times thanks to its trolley. A convenient storage system is provided for bolts, tools or accessories.

Features:

- Narrow width to move between lifts
- Air operated - no power or battery required
- Maintenance free
- One-man operation for tire assemblies
- 2 couplers for air wrench and inflator
- Tool and accessory tray
- Made in Germany

Technical data:

Lifting capacity	60 kg (132 lb)
Operating pressure	max. 8 bar (116 psi)
Minimum wheel size	135/80 R13
Maximum wheel size	305/30 R26
Working height approx.	1,400 mm (55 in)
Dimensions	584 x 900 x 1,500 mm (23.0 x 34.4 x 59.0 in)
Weight	50 kg (110 lb)

Mini-Ductor® Venom™

IND-MDV777 **\$637.66***

The Mini-Ductor Venom generates Invisible Heat® to release ferrous and some non-ferrous metals from corrosion and thread lock compounds without the dangers of open flame and up to 90% faster – 3/4" nuts are turned red hot in less than 15 seconds.

Features:

- Angled Design with Trigger allows for induction heat to access hard-to-reach places more easily
- Coil Twist Lock™ - coils now lock down with one simple turn (no more thumb screws) and Venom works with all Mini-Ductor coils
- LED Usage Indicator
- Fault Override Delay - any event that causes the red LED to illuminate will protect the tool by starting a three second lock out
- Fan Operation Enhancements
- User Controlled LED Switch

WORKS WITH ALL MINI-DUCTOR COILS!

Mini-Ductor® Coil Kit

IND-MD99 650 **\$193.60***

The Mini-Ductor Coil Kit includes 8 different coils in 7 different sizes for most jobs mechanics run into. Loosen seized hardware, bearings, gears, pulleys, lug nuts, inline applications, fuel tank straps, paintless dent repair applications, O2 sensors!

Long Coil for removal of 6.7L EGR Tubes

IND-MD99 606 **\$25.15***

The MD99-606 coil aids in the removal of 6.7L EGR Tubes. It's 1/2 in ID Pre-Formed Coil heat resistant pre-formed coil (11.00"L x 0.75in O.D.). Fits the all mini ductor series.

Mini Pad Attachment for Mini-Ductor®

IND-MD99 604 **\$102.87***

- Quickly remove decals, graphics, pinstripes, emblems, and body side moldings by heating the ferrous metal underneath
- Softens spray paint to easily wipe off
- No need for solvents

Marksman™ II Ultrasonic Leak Detector

TRA-TP9367L **\$683.15***

Convenient and easy-to-use touch-control sensitivity pad and power switch. Ideal for user in extremely noisy environments.

Detects leaks by converting inaudible ultrasonic sounds to audible sounds! Provides quick diagnosis of leaks and defects before they become major breakdowns! Convenient and easy-to-use touch-control sensitivity pad and power switch. Ideal for user in extremely noisy environments.

Ideal for detecting refrigerant leaks in an A/C system without the system being charged with refrigerant, as well as: vacuum leaks, cabinet seals, compressed air leaks, tire leaks, EVAP system leaks, gear and bearing wear, electrical discharge, exhaust leaks, and gasket integrity checks.

Automotive Multimeter Combo Kit

FLU-2117440 **\$851.49***

- Complete automotive diagnostic package
- Built-in thermometer
- Volts, ohms, amps, continuity & diode test
- Milliseconds pulse width measurements
- RPM measurements with inductive pickup
- Min/Max/Avg recording
- Frequency and duty cycle

15W COB LED Work Light

JNW-AG010207 **\$95.34***

Sturdy, rechargeable and slim with enough brightness to light the most obscure engine bay. Stay put with a convenient magnetic base or use a hanging hook.

- Very bright, adjustable 0-410 Lumens with dial power switch
- Long lasting lion battery, up to 10 hours on low
- USB rechargeable (includes wall adapter with USB cable)
- Heavy duty 360° swivel lock base with powerful magnet that keeps the light in place.

BrakeMate Jr. - Standard and Hybrid Brake System Pressure Bleed Machine

FLO-98002 **\$3,323.44***

A mobile unit to pressure, bleed, or flush standard and hybrid brake systems. Can also bleed hydraulic clutch systems with special adapters. Extensive master cylinder adapter set with carrying case. This is a pressure bleed brake/clutch machine adjustable from 3-45 psi and does one brake line at a time.

Features:

- New fluid tank includes automatic low fluid shut-off
- Able to handle high pressure hybrid vehicle brake systems up to 45 psi
- Master cylinder adapter set with carrying case
- Brake fluid extractor included
- Pressure regulator and gauge to set proper fluid pressure
- 5-quart fluid storage tank
- Operates on 12 volt DC
- Handy waste fluid container (1) with chain
- Adapter case attaches to unit

Heated Cooler Line Flusher

GTC-TTCF 8 **\$6,037.71***

This special tool removes contamination in the cooling system by melting down waxy varnish residue from burnt ATF and by purging the metal particles, clutch materials, and other contaminants from the system. Come with the following adapter sets: Domestic, Banjo, Honda

Spin On Oil Filter

\$18.04* / each

GTC-TTCF NBP

McPherson Strut Compressor

\$1,212.59*

BRA-7600

Most trusted strut spring compressor! The 7600 handles even tough applications without the need of adaptors. The multi-position upper spring hooks are adjustable up to 4 inches, in 1 inch increments, giving the Model 7600 the flexibility to fit difficult coil spring configurations while its long handles provide extra torque to make compression easier. With a structural ring guard, better top nut clearance and a longer compression stroke, this is the best spring compressor on the market.

Features:

- Doesn't Require Adaptors
- Heavy Duty Acme Thread
- Versatile Mounting Options
- Multi-Position Hooks
- All Steel Construction
- Easy to Use
- 18" L x 18" W x 48" H

Wireless Chassis Ear (Electronic Squeak & Rattle Finder)

STE-60635 **\$498.99***

A constant rattle or squeak is enough to make any driver or passenger irritated. The same can be said for a Technician that is unable to find the source of the problem. With the Wireless Chassis Ear, Technicians can:

- Quickly pinpoint the source and location of noise:
 - Faulty fuel injectors
 - Under chassis, Under hood
 - Bearing, gears and suspensions
 - Transmissions
 - Differential / C.V. joint
- Instant cross-comparison between all four channels in one short-test drive

Expansion unit - modules #5 and #6

STE-60635 05 / STE-60635 06 **\$61.07* each**

Expand the diagnostic range of the Wireless Chassis Ear by taking full advantage of the remaining 2 channels. EXPANSION UNIT - These are the optional channel #5 and #6 wireless transmitter unit for the 60635 Wireless ChassisEAR. (clamps sold separately)

Standard Plastic Utility Cart

- SUN-8034 **\$327.79***
- 500 lb weight rating (250 lb per shelf) to support all transport needs
 - 4 Heavy duty, hard rubber casters for smooth operation
 - 4 built-in, on-board storage bins near the handle for added organization.
 - Deep shelf 41in x 18in design for maximum storage capabilities while working

Large Plastic Utility Cart

- SUN-8036 **\$431.64***
- 500 lb weight rating (250 lb per shelf) to support all transport needs
 - 4 Heavy duty, hard rubber casters for smooth operation
 - 5 built-in, on-board storage bins near the handle for added organization
 - Deep shelf 46in x 26in design for maximum storage capabilities while working

Titan Professional 60 in Heavy-Duty Workbench

- TIT-21006 (Red) **\$719.97***
TIT-21009 (Gray) **\$719.97***

This professional work table is an ideal companion for technicians or shop owners who need a quality work surface that can handle a range of applications. Available in red or grey

- Professional Series with 1,200 lb load support
- Durable powder coat finish over 13 gauge steel construction
- Full bottom shelf
- 60in x 31in x 34in

34" Pro Series Three Drawer Flip Top Service Cart

- HOM-BK05500200 **\$852.06***
- 3.2 mil Epoxy-Polyester Powder Coat Paint Finish
 - HMC High-Security Tubular Locking System with Keys
 - Full-Length Metal Push Handles
 - EVA Foam Drawer Liners Included
 - Full-Length Aluminum Drawer Pulls
 - Full-Extension Gas Struts Support Till Compartment Lid
 - Four Chromed 5in x 2in Swivel Casters: Two with Wheel Brakes
 - Removable 350 mm Ball-Bearing Drawer Glides
 - Bottom Shelf for Additional Storage Space

Portable Car Exhaust Pipe Expander

- BB -411000101S (6 segments)
BB -411000104 (7 segments)
The revolutionary tool that lets you replace only worn-out sections of exhaust pipe. The portable Hand Expander does the work of four ordinary tools - cheaper, faster, better!
Available in a 4 or 6 segment set.

- Features and advantages:
- Light weight (only 4.5kg, 10 pounds).
 - Compactly built and easy to operate.
 - Fast (does the job in 15 seconds maximum).
 - Easy to set size specification.
 - Portable or bench mount.
 - Eliminates need for welding.
 - Gives a tight joint.

- Technical Information
- Expansions range: from 1-1/2» inner diameter to 2-1/2» outer diameter
 - Accuracy: controlled to .005»
 - Stroke: 1.350»
 - Calibration: adjustable
 - Required air pressure: 60 to 120 lb/po2
 - Hydraulic system pressure: 6,000 lb/po2 (factory set)

Engine and Transmission Repair Stand

WTN-WW MG600V **\$2,849.28***

Developed for repairing engines and transmissions, up to 1,102 lb/500 kg (especially for 8 up to 12 cylinders). Easy to maneuver even with engine or transmission attached to the stand. 360-degree rotation with load. Compact space-saving design. Self-locking worm gear and lockable rear wheels allow safe positioning. Hydraulic adjustment of load holder height up to 180 mm. Ready to use with removable oil pan and handy tool rack.

Features:

- 360° rotatable.
- Single-person operation.
- Adjustable height.
- Time and space saving.
- Safe in all positions.
- Waste oil pan and tool rack.
- Max. Width: 31.1" (790 mm).
- Max. Length: 41.73" (1060 mm).
- Total Height at Center: 35.43" (900 mm).
- Flange diameter: 8.66" (220 mm).
- Load capacity: 1,322 lb.(600 kg).
- Weight approx. 220.462 lb

Universal Engine Adapter

WTN-WW.6.140K **\$1,155.84***

- Load capacity 500 kg
- Suitable for common engine types
- Quick and easy fixing possibility
- Designed for stands MG-150V, MG-250, MG-500 and MG-600V

4 x lifting lugs 160mm, 2 x lifting lugs 90mm,
6 x bolts M10x25 male thread (MB),
6 x bolts M12x25 male thread (VW),
6 x bolts M12x1.5x25 male thread (PO),
6 x hexagon screw M12x35.6 x hexagon
screw M14x40. Packed in plastic case.

Universal Adapter

\$1,541.12*

WTN-WW GA400

- Load capacity 400kg
- Perfect accessibility for all types of transmissions
- Suitable for common transmissions and axels
- Quick and easy fixing possibility
- Designed for the stands MG-250, MG-500 and MG-600V

- 1 x width-adjustable main plate
- 4 x support brackets, 2x engine adapter
- 4 x hexagonal bolts (M12x50)

GoJak® Jack Dolly Car Positioner

GOJ-G6313 **\$415.12***

Able to jack vehicles weighing up to 6,300 lb (1,574 lb per wheel), it has steel rollers and wider axles as well as two heavy-duty 5" diameter, and two heavy-duty 4" diameter, double-ball raceway casters. This combination makes for easier rolling with heavier loads.

Picture for illustration purposes only. Gojack dollies not included.

Carrying stand

GOJ-G567R **\$154.55***

2-Ton Low Profile Roll Around Service Jack

STE-99015 **\$811.53***

- Extra long low side frames designed for long reach under the car chassis
- Innovative design of Magic Lift offers a quick lift for professional performance
- Wide stance and low center of gravity provides optimum stability under load stress
- Universal joint release mechanism provides precision control of load descent in any handle position

Accessory Set for Presses

OTC-1881 **\$1,057.28***

Accessories attach to ram's forcing screw or support work on the press bed.

PROFESSIONAL LIFTING EQUIPMENT

3 1/2-Ton Capacity SUV Floor Jack

\$561.20*

NOR-71335A

- Min. Height : 4"
- Chassis Length : 28.5"
- Shipping Weight : 106 lb
- Max. Height : 21.375"
- Chassis Width : 14.375"

3" Saddle Extension Adapter

\$187.40*

NOR-71303

(Fits NOR-71335 above)

Since most SUV have a higher lift height, the increased height of the saddle allows for quicker positioning and quicker lifting of the vehicle.

- Chassis Width : 16.75"
- Shipping Weight : 240 lb

2,000 lb Engine Stand for large engine

\$1,983.09*

NOR-78200A

A twin-post design capable of handling large engines and diesel engines ranging between 1,250 and 2,000 pounds.

- 50:1 ratio hand crank gearbox
- Two rigid wheels in back and two swivel caster wheels in front
- Polyurethane wheels protects tile and epoxy floors.
- Includes two universal mounting plates, rotating shaft, eight fully adjustable arms and all the related mounting hardware.
- Rotating shaft with mounting plate telescopes inside the post receiver for fine adjustment when mounting ends or sides of engines. Mounting plates can be adjusted 36-1/4" apart.

CONTACT US FOR
 Optional Engine Mounting adaptors available

3,600 lb Capacity Adjustable Car Dolly

\$771.43*

NOR-78090A

For easy movement of vehicles that have been rendered inoperable due to engine/ transaxle removal or other mechanical problems. Frees up lifts and floor jacks for other work to be performed. Used in automobile repair, collision repair, and vehicle inspection applications.

- Height Adjustment : 12.75" - 15.75"
- Length Adjustment : 30" - 60"
- Width : 17"
- Weight : 65 lb

PROFESSIONAL LIFTING EQUIPMENT

Air / Hydraulic Shop Presses

Shielded heavy-duty rams have return springs. Hydraulic power units are bearing mounted for horizontal movement on the head channel, making positioning quick and easy. Zero distortion heavy-duty frame construction adds to the life expectancy of all presses. Air / hydraulic presses have the same specifications as the manual units and include an air / hydraulic foot pump and liquid-filled pressure gauge.

50 ton capacity

2,500 lb. Capacity Folding Engine Crane

\$3,026.49*

NOR-78106A

Raise, lower and transport automobile engines, transmissions, differentials and other heavy loads with minimal effort! Features a four position telescopic boom with 3/8" proof chain and swivel mounted hook, and a 3-ton capacity hydraulic power unit for faster raising action and a large diameter ram to withstand angle loads. The low profile design (4-3/4" from top of legs to ground) allows positioning under low ground clearance vehicles and the foldable legs and boom save shop space (22-1/2" x 51-3/4") and prepare crane for transport or storage. The 4" diameter front wheels and locking rear caster wheels provide easy maneuvering. Locking caster wheels secure crane from moving.

*All sales F.O.B. shipping point. Prices effective through March 31, 2022. All prices are subject to change without prior notice. Applicable taxes, installation and freight extra. Per supplier, a surcharge (for steel or other) on applicable product will be added at time of order. Contact DES-Canada at 1-866-868-3372 for complete details.

20 gal (80 L) waste Oil/Coolant Drainers

\$745.60*

FLX-00.3195BK (black)
FLX-00.3195RD (red)

20 gal. (80L) tank with 10 L catch basin, Mobile, combined waste oil drainer and suction unit, with collection container of 80 L capacity, two fixed wheels and two casters, with wide collection bowl in painted steel of 10 l capacity incl. removable anti splash grid, including level gauge, suction hose, kit of suction probes in different diameters, suction adapters and storage bowl. The unit can be discharged pneumatically by connecting it to compressed air. The unit can be used also autonomously since it does not require a continuous air supply.
2 Year warranty on parts
(Available in black or red)

Accessory required:

FLX-00.3299 **\$59.20***
Metal crown drain adapter, permits the enlargement of the collection diameter of the drain bowl. Final diam 590mm

Pneumatic Mobile Grease Kit

Mobile pneumatic grease supply kit for 18/25 kg - pails

Bench Top Tank Package

Bench tank for motor and hydraulic oils. All models are UL/ULC certified equipped with pneumatic pump 3:1, heavy duty reel 50 ft (15 m) x 1/2 in of delivery hose, meter control gun with no drip nozzle. Air filter regulator for the pump included. Canadian made Biexo bench Tank are available in different capacity, single or multiple lubrication products. Available in black for 1 or 2 fluids. Model promoted are with a total capacity of 1140 L (300 US gal) or 1500 L (390 US gal). Extra cost option: Preset meter gun, custom color and tank capacity

Taxes, freight and installation not included.
Picture of single fluid unit shown.

1140 L (300 US gal) Capacity

FLX-BENCHTANK1140 (1 FLUID)
1140 L / 300 US gal - 74in x 38in x 43in
Weight 485 lb

FLX-BENCHTANK1140X2 (2 FLUIDS)
2 x 570 L (total 1140 L) / 2 x 150 US gal (total 300 US gal)
85 in x 40 in x 43 in - Weight 695 lb

1500 L (390 US gal) Capacity

FLX-BENCHTANK1500 (1 FLUID)
1500 L / 390 US gal - 74in x 40in x 48in - Weight 595 lb

FLX-BENCHTANK1500X2 (2 FLUIDS)
2 x 750 L (total 1500 L) / 2 x 195 US gal
(total 390 US gal) - 85in x 40in x 48in - Weight 695 lb

25-Gallon Gas Caddy

JDI-FC 25GC **\$797.12***

- Two-way rotary pump for siphoning or dispensing
- Pump dispenses 1 gallon every 12 revolutions
- "Rebuildable" pump is made in the USA
- Fill level gauge
- Ground wire and clamp • UL approved

30-Gallon Manual Gas Caddy

JDI-FC P30 UL **\$1,801.77***

For use with Gasoline • Diesel • Kerosene • Biodiesel
• Transmission Fluid

Feature:

- 30-gallon capacity steel tank
- UL-Listed, complies with OSHA guidelines
- Fill level gauge with Internal filter system
- 4-way directional valve to easily control flow direction
- Heavy-duty locking rear wheels and locking front casters
- Ground wire and clamp
- 8 ft PVC suction/discharge hose with internal grounding wire
- Decal set for contents identification
- UL-Listed cast iron rotary pump
- Integral filter system to filter pumped fluid in and out of the tank

Drain Pan 4.5-Gallon (17L) capacity

LIS-17982 (Green) **\$31.81***

LIS-17972 (Black) **\$31.81***

- High-density polyethylene material is resistant to chemicals and solvents, and is easy to clean with large, easy-grip handles.
- 1in wide diameter spout for quick and easy pouring with anti-splash lip and baffles help prevent spilling

TOUGH LIQUID MANAGEMENT DUO FOR THE SHOP!

22-Gallon Portable Antifreeze Drain

JDI-22DCAF **\$765.43***

Ideal for facilities that store large volumes of used antifreeze. This drain is molded in green polyethylene so the proper receptacle is used to prevent mixing of fluids. It can be used with coolant or other fluids that need to be stored and disposed of separately.

22-Gallon Oil Change Station

JDI-22DCX **\$765.43***

This 22-gallon (83 L) capacity drain is designed for high volume automotive service facility with features that make oil change service productive and profitable. This tank is virtually indestructible. Plus, the poly construction prevents accidental damage to vehicles. The 3in front casters and 10 inch rear wheels make it easy to position.

COMMON FEATURES (22DCX/22DCAF):

- 22-gallon (83 L) capacity high impact polyethylene tank with built-in filter drain
- Molded tool pockets and padded handle bars
- Pop-up fluid level indicator
- 3 in access port
- Convenient drain valve adapts to most quick disconnect couplers

Mechanical Hose Reel

FIL-ARC100/7PBCOM (7.5 m / 25 ft)
FIL-ARC100/10PBCOMP (10 m/33 ft)

\$1,411.20*
\$1,562.40*

Spring recoil hose reel with heavy duty adjustable stopper and complete of special rubber hose able to resist up to temperatures of 200°C /392°F and standard conical rubber adaptor.
Diam. 100mm (4") & Length 7.5 m (25ft) or 10 m (33ft).
Options available: Internal automatic closing valve (ARC-SERR) and clean contact (Micro Start) for remote automatic start & stop of the fan.

\$216.00*

FIL-AR100 SER
Internal automatic dumper for ARC-100. Installed in the hose reel.

\$104.40*

FIL-MICRO START
Micro switch for automatic start/stop of the fan by cable. Installed on the hose reel.

Y Kit for Double Exhaust

\$360.00*

DES-YKIT.4WO
(no nozzles)

\$559.20*

DES-YKIT.4
(with BGT-100/140)

Y kit for double exhaust with 2 hoses of 1.25 mts length each. Suitable for hoses diam. 4". Available with and without rubber adaptors.

Exhaust Extraction hoses

FIL-EUROGAS.100/10 (10m or 33 ft)
FIL-EURO.GAZ.100/7.5 (7.5m or 25 ft)
Completely Crush-proof nylon coil reinforced hose for max. temperature of 200°C (392°F). Strongly recommended for its great flexibility, lightness and resistance. 100mm (4") diameter

Exhaust Nozzle Adapter

\$96.77*

FIL-BGT 100/140
Rubber nozzle with silicon removable cap.

Call for Price

Adapters

\$432.00*

FIL-BG 100/200PI

Special adaptor with stainless steel grip suitable for internal mufflers. An endless screw will help to secure the grip into the muffler. External diam. 200 mm (8"). Adaptor made in solid rubber. Suitable on all existing systems with a hose diameter of 100mm (4").

\$729.00*

FIL-BOT 100PI HO

Special adaptor with stainless steel grip suitable for internal and larger mufflers. An endless screw will help to secure the grip into the muffler. External width 585mm. Adaptor made with galvanized steel and a special antiscratch rubber at the front. Suitable on all existing systems with a hose diameter of 100 mm (4").

SLIDING HOSE REELS

QRS 3-20M OIL-INJECTED SCREW COMPRESSORS QRS 3-10M Fixed Speed Rotary Screw Air

Line filters
Can be added for high-quality air.

Low-loss timer drain
Removes tank condensate.

60 Gal tank
Gives you extra air storage and reduces the risk of condensation.

Oil heater
Prevents intermittent-use condensation by maintaining a constant oil temperature while unloading/idle.

Tropical thermostat
Maintains a higher oil temperature to reduce the risk of condensation.

Aside from the tank-mounted models, floor-mounted units are available in all power sizes.

Advanced screw air end
The QRS 3-10M comes with a new high-efficiency air end that delivers 15% more air and is 12% more efficient than its predecessor.

IE3 efficiency motor
allows for continuous operation while reducing energy costs.

Refrigerant dryer
can be added to your QRS for dry, quality air.

Super-silent canopy
reduces sound emissions to a comfortable 61-68 dB(A).

QRS Quiet Rotary Screw Compressor

Low sound enclosure with continuous operation capacity in the shop. 5 year warranty†

1ST QUARTER PROMOTION

THE BENEFITS OF THE STACKING DOOR TECHNOLOGY

- Minimised required space.
- No fixation by the ceiling required, easy integration also in glass façades.
- Reduced cost of operation and maintenance, as wearing parts such as torsion springs, hinges, spiral cables or shock absorbers are NOT used.
- Combination with door elements with translucent fibre glass possible.

Stacking Door SPACELITE® HT 40

Spacelite revolutionary stacking principle

The SPACELITE HT stacking door is especially suitable for use in car workshops, production buildings and car dealerships thanks to its material and the space-saving opening principle. When opening, the door does not come into conflict with other mechanisms such as lifting platforms or lighting installations. Thanks to the low-wear design, this door requires less maintenance work and consequential costs are avoided.

Economically priced basic model For door dimensions up to 5,5 m width by 9,0 m height we offer a cost effective type with basic accessories, which can be extended according to customer's needs and application.

Improved thermal insulation Using the ISO-option, we can realize U-values of 1,8 W/m²K for the entire door. This kit contains transparent insertion foils in the fibreglass panels, thermally insulated panel profiles, double sealing to the wall, additional brush sealings inside the guide track and vision panels with filling made of insulation glass. Hereby the outstanding translucency is hardly affected.

Extraordinary opening principle Once door is open panels are parked behind the lintel in a spacesaving and sheltered manner

Translucent fibreglass Pleasant working conditions inside the building and reduction of illumination costs

Extraordinary opening principle

Upon opening, the door panels stack safely and compactly behind the lintel where they are protected. Lighting devices, lifting platforms and other fittings on the ceiling are not impaired.

5.0M Evolution 2-tower system CHF-GJG630

This bench tilts allowing easier loading of the vehicle when driving up or winching onto the ramps. Vehicles can be loaded into sill clamps in as little as 15 minutes and thanks to the sliding crossbeams and base blocks, fully fixturing is also a quick and efficient process. Pulling towers remain attached to the bench and effortlessly glide 360 degrees around the bench. The "Vector" design of the towers means chain angles are always correct for every pull.

Globaljig Evolution package includes:
CHF-GJG630 – 5.0M Evolution Repair System /
CHF-GJE812 – 8 point centre holding fixture system /
CHF-GJD190 – Downpull system /
CHF-GJD550 – Bolt upgrade long bolts /
CHF-GJD248 – Bolt upgrade asian vehicles
(Installation and training not included)

Rollout Portable Fume Extractor

EUR-SYS.070.45106100

Eurovac's Rollout portable fume extractor is designed to capture and filter dry impurities created during welding, grinding and the cutting of metals.

Features

- Standard arm measures 6" in diameter and fully extends to 10ft. (Other sizes also available on request)
- 700 cfm at hood for powerful performance
- Three-stage filtration: aluminum mesh pre-filter, second polyester cartridge, filters and final carbon after filter. Manual pulse jet cleaning comes standard (optional HEPA upgrade available).
- Meets OSHA air quality standards

Airflow: 700 cfm

Filter Efficiency: 99.93% @ 3 microns

Power: 115 volts / 1 Phase 60Hz

Current Draw: 15 amps

Henrob RivLite™ Self piercing rivet (SPR)

HRB-10192 006

The tool features a modular design, powered by lithium ion 18V battery, which allows interchangeable tooling options such as C-frames of different sizes, noses for 3mm or 5mm diameter rivets and a special nose for setting threaded self-pierce studs. A rivet removal tool is also available to facilitate repairs such as the replacement of panels in a vehicle.

Rivets in tape are manually indexed into the nose and a simple trigger switch sets the rivet. The RivLite high force actuator is capable of installing Henrob's full range of rivets. Its handle can be positioned in 4 places, and the C-frame can rotate 360 degrees.

INCREASE PROFITS WITH A EUROVAC SYSTEM

High performance portable vacuum systems: BODY SHOPS

EXPERIENCE THE ULTIMATE IN PORTABLE TECHNOLOGY

Eurovac provides a variety of portable units that are perfect for eliminating unwanted dust and dangerous particles in a body shop facility. Each unit is constructed in heavy duty 14 gauge steel and are all finished with a tough and durable powder coat. These units in particular are perfect for capturing particulates generated through steel work.

Eurovac II "Cyclonic" Portable

EUR-SYS.050.18100000

- A powerful 2.5HP 1300 watt motor allows for two sanders to work simultaneously
- Available with a 5 or 10 gallon canister
- Vacuum speed dial to ensure the proper amount of airflow and suction
- Superior filtration: 30ft2of filter area with availability to add HEPA filtration. HEPA filter removes the remaining 99.97% of sanding dust to a minimum of at .3 micron particles
- 115/1/60Hz or 50Hz models available with 15ft. plug

Eurovac II "Compact" Portable

EUR-SYS.050.17900000

- A powerful 2.5HP 1300 watt motor allows for two sander to work simultaneously
- Vacuum speed dial to ensure the proper amount of airflow and suction
- Includes HEPA filtration which removes 99.97% of sanding dust to a minimum of at .3 micron particles
- Disposable paper bag filter secured inside steel drum for convenient collection and removal of dust and particulate
- 115/1/60Hz or 50Hz models available with 15 ft. plug

SYSTEM UPGRADES

Accessory cart with lockable cabinet
Top storage tray

Top storage tray

Auto filter cleaning

High performance detail central vacuum systems

• **INCREASED PRODUCTIVITY AND LOWER LABOR COSTS**
Properly mixed and properly identified cleaning chemicals are all at your technicians' fingertips

• **LOWER TRAINING COSTS**
Well-marked, organized chemicals and ease-of-use means that there is less chance for operator error

• **REDUCED WASTE AND THEFT**
Chemicals are always mixed correctly, and inventory can be stored in a secure location

• **LOWER MAINTENANCE COSTS**
Industrial grade Eurovac central turbine pumps and induction motors need little or no maintenance (portable shampoo / vacuum systems with brush motors can be prone to frequent breakdowns)

• **IMPROVED SAFETY**
Electrical cords and hoses do not clutter the work area. (In a wet environment electrical cords are hazardous)

• **PROFESSIONAL IMAGE**
The installation of an attractive Eurovac Chemical Dispensing System enhances the look of your operation

Ryko Car Wash Solution

The industry's only full-service vehicle cleaning-solutions provider in North America. For more than 40 years, we've washed millions of vehicles and serviced thousands of locations each day. We provide our customers a complete line of touch-free, tunnel and soft-touch car wash equipment. PLUS, we offer preventive maintenance services supported by a national, coast-to-coast distributor network of locally based service technicians. And finally, we're the only company that offers CleanTouch wash solutions that deliver exceptional performance that's tough on dirt yet gentle on vehicles and the environment. To learn how Ryko can help, contact your DES Canada representative for more details.

- Cleaned more than 100 million vehicles and counting!
- Our combination of electric motors and pneumatic actuators means no hydraulic fluid leaks
- FoamBrite's exclusive, closed cell foam material won't retain dirt or scratch vehicles
- Our ultrasonic and photo eye vehicle positioning is more accurate and automatic for any vehicle size!

SPECIFICATIONS:

- Electrical service: 60 Hz, 3 phase, 208/230 volt, 60 Hz, 1 phase, 120 volt
- Plumbing: 1" at 40 psi, usage rate 40 gpm
- Compressed air: 100 psi, 7 cfm, 3/8"
- Standard floor drain
- SoftGloss MAXX shown with special options
- Minimum floor space required, call for specifications

LaserWash® 360 Plus Touchless Car Wash

The newest LaserWash® in-bay automatic car wash raises the standard for touchless car wash equipment. With Revenue Enhancement and Total Cost of Ownership improvements being the main focus, this vehicle wash system delivers the industry's best Return on Investment. Smart 360™ Technology enables the car wash system to be responsive to the dynamic conditions in the wash bay and allows it to "think for itself", increasing up-time and optimizing the wash process. Substantially faster wash speeds lead to increases in vehicle throughput. Simplified machine design and lower energy and utility usages reduce operating costs leading to a more profitable car wash operation.

Features:

- PDQ's staple Open Wash Bay - overhead design with no floor steel
- Integrated FlashDry®
- Virtual Treadle® bay loading
- Smart 360™ Technology
- Slip-Free Belt Drive
- More Services - 3X Foam, Super Sealant, Rain Rinse Arch, Bug Prep, "Hot Wax"
- Tankless Operation
- Internal Bridge Rollers
- E-Chain Utility Routing
- Built-in Web Interface for Updating, Reporting & Monitoring

Includes: LaserWash 360 PLUS, Corrosion-Resistant Bridge & Trolley, Smart 360 Technology (Including: Smart Networking, Smart Dwell, Smart Arch Control, Smart Drying System (FlashDry ready), and Smart Cleaning System), Ultimate Cover Package, Automatic Obstacle Guidance, SST Wall Mounts, Anodized Aluminum Rails, Virtual Treadle, System Stop Button, Electrical Control Panels, Basic LED In-Bay Sign, Fully loaded Energy Chain (including: HP hose, all LP hoses and tubes, electrical cables, and a bulkhead manifolds at both ends), Pump Station with water tank is standard. Chemical delivery with two foaming detergents and one pump injected solution (can be configured either with HP or LP-pump).

Prices do not include Taxes, Freight, Install, electric and water connection, and any additional extra not clearly mentioned in the quote. A meeting and an onsite visit is required before product ordering.

*All sales F.O.B. shipping point. Prices effective through March 31, 2022. All prices are subject to change without prior notice. Applicable taxes, installation and freight extra. Per supplier, a surcharge (for steel or other) on applicable product will be added at time of order. Contact DES-Canada at 1-866-868-3372 for complete details.

Edge Key Cutting Machine

ILC-FUTURA EDGE **\$4,799.95***

Futura Edge is the electronic key machine for copying from the original and duplicating by indirect and direct code flat residential and vehicle keys. The machine duplicates also cruciform keys. Futura Edge is the right solution for parts or rental department for flat keys as well as single and double-sided automotive keys. The software guided procedures make the job easy for inexperienced key cutters, while the reduced dimensions and compact design make it suitable for the shop.

- User friendly software with step-by-step instructions
- Patented lasey key reader forcutting from an original
- Integrated 10-inch tablet with a compact, lightweight and ergonomic station, practical tool tray
- Built-in connectivity with USB ports and WIFI
- 4-sided clamp

Futura PRO with double cutting station

ILC-FUTURA PRO **\$13,166.01***

For laser and dimple keys and Edge cut keys! A unique electronic key cutting machine combining two cutting stations in one user-friendly, easy to transport tool with an easy access to the widest vehicle key database available on the market via the integrated tablet.

Features :

- Controlled by a removable 10 in (254 mm) tablet
- Shortcut function for vehicle key cutting code searches
- Key cut preview
- Guided updating procedure
- Faster switch on
- Improved hardware and connectivity with 2 USB ports

Futura Auto Automotive key cutting

ILC-FUTURA AUTO **\$5,517.19***

Futura Auto is economically priced, easy to use electronic key cutting machine for duplicating and originating all types of automotive keys including motorcycles and trucks.

- User friendly software with step-by-step instructions
- Software functions include: fast key search – simply enter make/model/year, key cut preview and guided updating procedures
- Single cutting station with two clamps allow for cutting most laser and edge cut automotive keys.

Laser Automotive Key Cutting

Edge Cut Automotive Key Cutting

Nite Drop Zone Key Vault System

SPE-SC3985CS **\$1,004.12***

Give your customers the convenience and security they deserve. Make it easy for your customers to drop off their vehicle anytime with this secure vault system. Easy-to-understand decals walk them through the process. Comes with a secure ballpoint pen and starter supply of service envelopes.

Features:

- Convenient pull-down writing surface.
- Heavy-duty steel construction with durable powder coat finish.
- No-worry theft-proof design.

Sales conditions

Prices shown are for blank keys, valid until March 31, 2022* and are subject to change without prior notice. The final price will be confirmed at the time of order. Taxes and freight are not included. Cutting service fee is \$9.90* per key plus applicable taxes. Estimated delivery time: any order placed before 2 pm EST will be shipped the same day (depending on availability).

GENERAL ETA - (METROPOLITAN AREAS):

- Ontario, Quebec, NB and NS delivery in 1 to 2 days.
 - NFLD, PEI delivery in 3 days.
 - MB, SK, AB delivery between 3 to 5 days.
 - BC delivery in 5 to 7 days.
- Express delivery service is available upon request for all areas.

IMPORTANT NOTE ABOUT KEY CUTTING SERVICE

When choosing the Key Cutting Service, customer has to provide the following vehicle information (Brand, Model, Year and VIN) as well as the Key Code for each key. Cut keys are not refunded or exchanged. DES-Canada cannot verify key codes and will only cut based on the key code provided by the customer.

Please note: Programming (also known as pairing) instructions or service are not included.
